Summary

Full-stack developer with hands-on experience building scalable web applications using React, Node.js, and MongoDB. Experienced in designing REST APIs, implementing authentication systems, and developing modular backend architectures. Strong foundation in data structures, object-oriented programming, and system design fundamentals. Passionate about building production-ready software and contributing to high-impact engineering teams.

Technical Skills

Languages: Java, Python, JavaScript

Frontend: React, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, SQL (CRUD, Queries, Schema Design)

Core CS: Data Structures, OOP, SDLC, Git, Debugging

Cloud & Tools: AWS (EC2, S3, IAM Basics), Linux, Postman, VS Code

Projects

College ERP System

React, Node.js, Express, MongoDB

- Engineered a full-stack academic management platform supporting role-based access for students, faculty, and administrators.
- Designed and implemented secure RESTful APIs with JWT authentication and role-based authorization.
- Developed modular backend architecture with input validation, structured error handling, and scalable service layers.
- Optimized MongoDB queries to improve performance and ensure efficient data retrieval.
- Followed SDLC practices including version control, structured debugging, and iterative feature deployment.

LostFinder

HTML, CSS, JavaScript

- Built a dynamic front-end platform for reporting and tracking lost-and-found items.
- Implemented client-side validation and event-driven architecture using DOM manipulation.
- Improved user experience through responsive design and performance-focused UI structure.
- Practiced clean code structuring and debugging techniques to enhance maintainability.

Key Highlights

- Built full-stack applications with authentication and database integration.
- Experience working across frontend, backend, and cloud fundamentals.
- Strong problem-solving ability with hands-on debugging and performance optimization.

Leadership & Achievements

- Coordinated cross-functional student teams for college-wide events impacting 200+ participants.
- Led academic project teams, structured development tasks, and ensured on-time delivery.
- Awarded **Best Student – ISTE** for academic and leadership excellence.

Certifications

- Web Development with React — DLite
- Java Concepts and Object-Oriented Programming — Infosys Springboard
- Generative AI for Data Analytics — Forage (2025)
- Postman API Fundamentals Student Expert — Postman (2025)

Education

B.E. in Computer Science and Engineering P.E.S. College of Engineering, Mandya, Karnataka	2022 – Present
PUC (Pre-University) Cauvery Excel PU College, Mandya	2020 – 2022
10th (SSLC) Chinmaya Vidyalaya, Mandya	2019 – 2020
