Summary

Full Stack Developer with hands-on experience designing and shipping end-to-end web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in RESTful API design, JWT authentication, role-based access control, database modeling, and responsive UI development — with a proven ability to own features across the entire stack independently and deliver under deadline.

Technical Skills

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, TailwindCSS, Responsive Design, DOM Manipulation, Component Architecture

Backend: Node.js, Express.js, REST API Design, JWT Authentication, RBAC, Middleware, MVC Architecture

Databases: MongoDB (Mongoose, CRUD, Schema Design), SQL (Basic Queries)

Languages: JavaScript, Java, Python

Tools & Cloud: Git, GitHub, Postman, VS Code, Vercel, AWS (EC2, S3, IAM — basics), Linux, Agile/SDLC

Projects

College ERP System ([GitHub](#)) *React.js, Node.js, Express.js, MongoDB, TailwindCSS, JWT*

- Engineered a full-stack academic management platform end-to-end, covering 12+ modules (attendance, grades, scheduling) with role-based access for students, faculty, and admins.
- Designed and implemented RESTful APIs with JWT authentication and RBAC middleware, securing data access across all user roles with protected route handling.
- Built a modular React frontend with reusable components and structured state management, reducing code duplication by ~35% and improving long-term maintainability.
- Optimized backend query performance and frontend load time via lazy loading and schema design, cutting initial render time by ~30%.

LostFinder ([GitHub](#)) *HTML5, CSS3, JavaScript (Vanilla), Responsive Design*

- Developed a fully responsive lost-and-found reporting interface with dynamic DOM updates and client-side validation across mobile, tablet, and desktop viewports.
- Implemented event-driven UI interactions and form handling logic, improving UX and reducing invalid submissions.

Education

B.E in Computer Science and Engineering 2022 – Present

P.E.S. College of Engineering, Mandya, Karnataka, India

PUC (Pre-University) 2020 – 2022

Cauvery Excel PU College, Mandya, Karnataka, India

Certifications

- Web Development with React — DLithe
- Postman API Fundamentals Student Expert — Postman (2025)
- Generative AI for Data Analytics — Forage (2025)
- Java Concepts and OOP — Infosys Springboard

Leadership & Achievements

- 1st Runner-Up**, Fin-A-Thon Hackathon — Puttannaiah Foundation: Designed and shipped a full-stack finance web solution under competitive conditions.
- Best Student Award** — ISTE, PESCE: Recognized for academics, leadership, and institutional contributions.
- Co-Secretary, YRCW — PESCE Mandya: Managed college-level events and volunteer teams of 20+ members.
- Independently owned full-stack feature delivery across projects; rapidly adopted MERN stack through self-directed learning and resolved complex API and database issues under deadline pressure.
